

Beyond Dispute

February 2012

Welcoming Tiggi Trethowan to Beyond Dispute

We are delighted to welcome a new face to the Beyond Dispute health and safety team.

Tiggi Trethowan is a highly experienced Line Producer & First Assistant Director in charge of logistics, safety & the smooth running of each programme she works on. Her professional history has been spread widely across the BBC & Independent sector. Her work has concentrated on high profile & extreme type of programmes including '999' for the BBC, the 'Man vs Wild' series starring Bear Grylls, 'Girl on Wire' for BBC Blue Peter & most recently the new Ben Fogle series 'Year of Adventure' for the BBC & Lonely Planets.

Tiggi is also the Event Manager for the 'BBC Antiques Roadshow'. The AR producers gave her the challenge to update & make safe the running of each event. She has achieved this goal & is now responsible for the safety of up to 4,000 people per show.

To operate on all these types of shows, Tiggi has continuously trained to the highest level of TV & Filming safety, including the gruelling Hostile Environments course. She is regularly called on to consult & write up Risk Assessments for up & coming projects due to her wide range of experience.

She complements the existing Beyond Dispute team adding an exciting new dimension to our breadth of experience.
